#### **European Data Portal Tailored Support Workshops**

## **OPENING COVID-19** VACCINES DATA IN FRANCE

Mario Restuccia

**Thursday 18 February 2021** 

#### What is Etalab

## We coordinate the design and implementation of the State's data strategy.

#### MISSION

#### What is Etalab

- Data opening and data circulation
- Data exploitation: data science, artificial intelligence
- Innovation and openness of public action

## Manage the national open data portal data.gouv.fr

#### A RETROSPECTIVE

### Why open COVID-19 data

 Provide factual information to citizens and policy makers

 Essential for researchers, journalists, companies, etc.

#### A RETROSPECTIVE

### What we did in 2020

#### **Open data**

- Hospitalisations and ICU
- State economic aid

# Vaccination

## Vaccination is complex

- Health authorities
- Political authorities
- Private companies

#### **Lots of sources**

- Closed system to keep track of vaccinations
- Logistics data
- Appointments with private companies

### What is open today

## Number of people vaccinated

**Vaccination centres** 

Vaccine stocks

### What is open today

### Number of people vaccinated

- Data issued from the national IS No. of people having received one or two doses, by:
- Sex
- Age groups
- Region
- Department

- Address and p
- Opening hour
- Webpage + pl for appointme

#### What is open today

eople vaccinated

n the national IS aving received s, by:

- Address and precise location
- Opening hours
- Webpage + phone number for appointments

#### **Vaccination centres**

- Data on vaccine
- Type of vaccir
- Region, depar storage facilit
- Taking into acco logistics flows

# What's next?

#### More data

- New vaccines
- Pharmacovigilance
- Concentration of SARS-CoV-2 in waste water
- Anonymised contact tracing data
- Repository of health resources

#### Several challenges

**Evolving situation** 

## Coordination among actors

## Different data sources

## Need to adapt the indicators

#### What we learned

**Be prepared** 

**Be organised** 

Map all the data produced and associate operational contacts for each dataset

## Implement interoperable systems of data collection, aggregation and publication

### A strong political interest

## Lessons from crisis management COVID-19 raised the salience of data in the political

- debate
- Policy decisions must be backed by data

### A strong political interest

#### 

Using the resources from NextGenerationEU, the Government will **finance data-driven projects** within public administrations

## The Government has made a commitment to implement **a stronger open data policy** and open new datasets
